

## The Phenomenology and the Physics of Time

Rome 6<sup>th</sup> - 7<sup>th</sup> of April, Aula Verra (ground floor), Faculty of Arts (ex Facoltà di Lettere)  
via Ostiense 234, 00146, Rome.

6<sup>th</sup> of April

9:10 – 10: Claudio Calosi, (University of Neuchâtel),

**Locational Problems for Locational Endurantism**

10:00 – 10:50 Orly Shenker (Hebrew University of Jerusalem)

**The Past Hypothesis and the Psychological Arrow of Time**

11:10 – 12:00 Marc Wittmann (Institut für Grenzgebiete der Psychologie und Psychohygiene; Freiburg)

**Embodied time: How the body and brain create our feeling for duration**

12:00 – 12:50 Francesco Orilia (Università di Macerata)

**Presentism vs. eternalism: moral and existential aspects.**

General Discussion 12:50-13:20

15:30 – 16:20 Yuval Dolev (Bar-Hillan University)

**Physics' Silence on Time**

16:20 – 17:10 Carl Hoefer (ICREA, University of Barcelona)

**Physics and Temporal Becoming.**

17.40 – 18:30 Oliver Pooley (Oriol College Oxford)

**Relativistic growing block**

General Discussion

7<sup>th</sup> of April

9:00 – 9:50 Christian Wüthrich (University of Geneva),  
**The (a)temporal emergence of spacetime**

9:50 – 10:40 Daniele Oriti (Max Planck Institute Potsdam)  
**An emergent universe without fundamental space and time**

11:00 – 11:50 Meir Hemmo (University of Haifa)

**Maxwell Demon and Quantum Mechanics**  
mechanics. 11:50-13:00 Discussion
